Code of Ethics in Research

Introduction

This Code of Ethics is aimed at prevention of malpractices and plagiarism in Research works carried out by the faculty members, Research Scholars at G. S. (Autonomous) College, Jabalpur. The principles of this Code of Ethics are with the noble purpose of guiding researchers to an ethical course of action enriched with the values and mission of G. S. (Autonomous) College, Jabalpur.

Preamble

The Faculty Members, Research Scholars of G. S. (Autonomous) College, Jabalpur are committed to the pursuit of truth, honesty and integrity, to uphold the vision-mission of our institution, to safeguard and promote public interest during our research activities.

Principles

The principles mentioned below bind the researchers of the college, to the strictest measure of integrity and the highest ethical standards:

a) Integrity and Honesty:

We have to act with sincerity keep our promises and agreements as well as our thought and action shall be consistent. We shall disseminate the methods and procedures of our research works and report data and results honestly and shall not fabricate, falsify, or misrepresent data.

b) Objectivity:

The objective of the research work shall be well defined and free from bias in the design of methodology, data analysis and data interpretation. The objective may be of fundamental interest as well as it may have a goal towards welfare of the society, community, nation and the nature.

In order to detect the plagiarism, college recommends well known freely available softwares/tools such as Urukund etc.

Dr. Sunil Kumar Pahwa
Principal / Convenor/Co-ordinator

Role of the Research Ethics Committee

Research ethics committees have an important role to play in ensuring the ethical standards and scientific merit of research involving human subjects. There are three important obligations placed on the ethics committee.

Firstly, and most importantly, the ethics committee must ensure that the rights of research participants are protected. This is achieved by ensuring that individuals receive sufficient information, which can be easily understood, and ensuring that appropriate strategies are in place to protect participants from potential adverse consequences of the research.

Secondly, the research ethics committee has an obligation to society which provides the resources for research and will ultimately be affected by the results.

Thirdly, the research ethics committee has an obligation to the researcher. The research proposal should be treated with respect and consideration. The research ethics committee should strive to meet each of these obligations. All researchers should welcome the contribution made by research ethics committees to the research process because they help to ensure that research meets the high ethical and scientific standards expected by society.
